600+ Facilities

2,800+ Users

\$1.8B+ Inventory Managed

Features Designed To Benefit You

Purchase Order Management
(Convenience)

Automated Reporting
(Compliance to New Federal Regulations)

Helping at Each Step of Your Inventory's Journey

Have Visibility of Your Inventory

- Know what you need to order and prevent out-of-stock
- See real-time inventory levels and avoid over-stocking
- Receive alerts for expiring products

Use Data to Your Advantage

- Utilize reports to gain insight on usage, dispensing, purchasing, billing and more

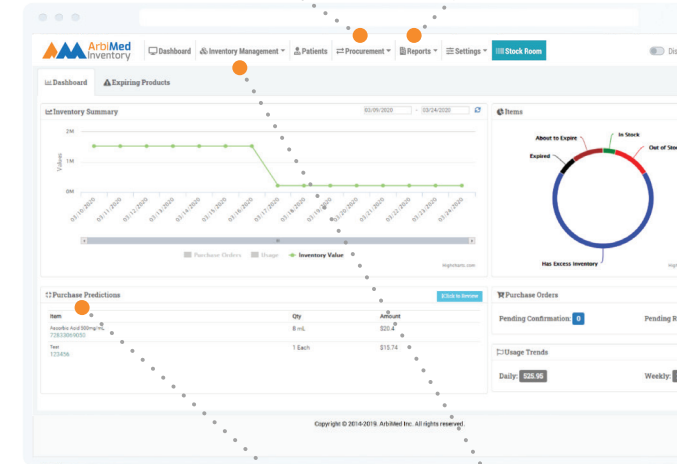

Integrate with Your Suppliers and Practice Management Systems

- Order your supplies without leaving the software
- Manage your patients through your PMS & EHR software

Improve Profitability

- Better use of cash through inventory optimization
- Eliminate unnecessary spending by preventing over ordering
- Avoid delays & cancellations of patient appointments due to missing supplies

Purchase Prediction
(Just in Time Inventory)

Lot & Expiration Date Tracking
(Traceability)
